Put your trust in the name you know

For more than 90 years, Schlage has been creating the strongest and most technologically advanced security products for schools, hospitals, hotels, commercial and institutional buildings, multi-family properties and homes. From durable mechanical locks to comprehensive electronic access control solutions and biometrics, Schlage provides protection at critical moments – when property and personal security are at stake. With a wide range of products, styles and finishes, Schlage has products for the most demanding project specifications. In public buildings, in the workplace, and in homes, at the end of the day Schlage stands for one thing: strong.

D Series

Heavy-duty performance for high traffic applications

At Schlage, we know that every product you specify has to stand up to constant use and abuse without compromising security. The D Series gets the job done with tough, dependable ANSI Grade 1 locks designed for use in military barracks, back-of-house hospitality and retrofit applications. Built for heavy traffic applications, D Series locks are easy to service and maintain, and come in a range of styles and finishes to fit your building.

Pictured here: Tulip knob shown in 626 satin chrome

Real security is knowing exactly what you want and getting it

When you know exactly what you want, you don’t want to waste time finding out whether it meets your project specifications. That’s why we offer the world’s largest team of hardware specification writers to help you and your clients turn your vision into reality. And when it comes to products, our commercial suit ing options, wide variety of lever designs and rich selection of finishes give you the tools you need to make your projects perfect. You know what you want. With Schlage, you can be sure you’ll get it.

Safety, security and confidence

When you choose a Schlage lock, you can be sure you’ve done the job right, the first time. After all, our products are among the most durable and dependable on the market today. Our locks are easy to install, and simple to repair and maintain. That means fewer callbacks for you, and total safety and security for your customers.
We don’t compromise on security

The safety and security of your clients’ buildings is something we take very seriously. That’s why every Schlage lock and deadbolt undergoes intensive testing to determine its ANSI grade level:

- Cycle tests
- Door impact tests
- Bolt strength tests
- Resistance tests
- Warped door tests

We pay attention to these details so you can focus on creating a functional and aesthetically pleasing environment for your clients. In fact, every one of our D Series locks meets ANSI Grade 1 standards for safety.
D Series

Schlage D Series knobs are built to tough manufacturing standards that ensure a long life with smooth performance. With finishes to fit your building design, and a choice of styles, the D Series is one of the toughest knobs we make.

Pictured here: Plymouth knob shown in 626 satin chrome
Heavy-duty hardware for premium performance

- Exceeds 800,000-cycle ANSI Grade 1 requirements
- Exceeds ANSI A156.2, Series 4000 Grade 1 lock knob torque requirements
- Heavy-gauge, cold-rolled steel mechanisms are corrosion treated for normal atmosphere conditions

Door handing

All Schlage locks are reversible. Hand information is necessary to ensure proper cylinder orientation in keyed functions, and finish of latchbolt and strike for locks that are to be installed on reverse bevel doors. Follow the diagram to correctly determine the hand of the door.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.

Electrified Functions

Schlage ANSI
D80PDEL D12DEU
Electrically locked (fail safe)
- Auxiliary latch deadlocks latchbolt when door is closed.
- Outside knob continuously locked electrically until unlocked by key, switch or power failure.
- Inside knob is always free for immediate egress.

Schlage ANSI
D80PDEU D12DEU
Electrically locked (fail safe)
- Auxiliary latch deadlocks latchbolt when door is closed.
- Outside knob continuously locked until it is unlocked by key or electric current.
- Inside knob is always free for immediate egress.

Mechanical and electrical control:
Schlage D Series locks are available for remote electrical locking and unlocking for high security and fire safety applications.

Applications:
Security control centers, cashier rooms, fire safety alarms, stairwell doors, telephone equipment rooms, computer rooms, hospital equipment and narcotics areas.

Controlling devices:
Security alarms, wall switches, security consoles, access card readers, thermo-sensitive devices, smoke and fire alarms, telephone access controls, automatic time devices, biometrics readers and computerized controls.

Available in 606 and 626 finish only. Everest 29 S123 keyway standard.

Full size interchangeable core

Schlage® interchangeable core (IC) locksets allow immediate rekeying at the door simply by using the special control key to replace the core in seconds. Available in all lever designs and the Orbit knob, full size interchangeable cores can be integrated into any 5 or 6-pin Schlage key with no adverse affects on keying capacity.

Primus XP access control and high security cylinders

Primus XP access control and high security cylinders are available to add patented key control and varying degrees of geographical exclusivity to most Schlage 6-pin key systems, whether Everest 29 or Classic keyways.

In addition to a conventional pin tumbler mechanism, Primus cylinders incorporate a patented finger pin and sidebar design, providing a “dual-locking” cylinder that is virtually pick-proof. Resistance to drilling and other physical attack is optional by specifying 20-500 Series UL437 Listed cylinders.

Classic Primus XP cylinders are recommended for upgrading existing Classic key systems. Due to its extended patent life, the newly designed Everest 29 Primus XP is recommended for new key systems and for upgrading existing Everest key systems. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

Visit allegion.com/us for more information.
IC retrofit kits

To convert standard D Series locksets to accept Schlage full size interchangeable cores, change the knob and add parts shown. Orbit design only.

Latches

D Series latches are adjustable for flat or beveled edge doors. Latches and strikes are furnished in brass, bronze, or chrome finishes to be compatible with lock trim. When ordering, specify quantity, part number, and finish. All D Series latches have \( \frac{1}{2} \)" throw and 1" housings except \( 2 \frac{3}{8} \)" backset latches, which includes sleeve G506-815 to fill a 1" edge bore. Standard letters are shown in bold type.

<table>
<thead>
<tr>
<th>Backset</th>

<td>14-028</td>
<td>14-010</td>
</tr>
</tbody>
</table>

Long Backsets

D Series locks with 5" backsets are normally furnished with \( 1\frac{1}{8} \)" faceplates and 1" housings. Links installed in metal doors require one A501-567 sleeve and 43-005 (order separately) to join latch and link.

Door Reinforcement

Reinforcing unit is required to reinforce and help prevent the collapse of hollow metal doors when locksets are tightly mounted. This kit should be used with long backsets for D Series lock installations in hollow metal doors to prevent lateral movement of the latchbolt. Specify door thickness, \( 1\frac{1}{8} \)" (35 mm) or \( 1\frac{3}{8} \)" (44 mm), when ordering reinforcement kits.
Strikes

All Schlage strikes are furnished complete with screws. The standard D Series strike has a 1\(\frac{3}{16}\)" lip. When ordering separately specify quantity, product number, finish, and lip length. Standard strikes are shown in bold type.

<table>
<thead>
<tr>

Specifications

**Handing:**
Keyed functions of knob designs are field reversible.

**Door thickness:**
1 3/8" to 2" (35 mm-51 mm) standard.
2" to 2 1/4" (51 mm-64 mm) optional.

**Backset:**
2 3/4" (70 mm) standard, 2 1/8", 3 3/4" and 5" (60 mm, 95 mm, and 127 mm) optional.

**Faceplate:**
Brass, bronze or stainless steel, 1 1/8" x 2 1/4" (29 mm x 57 mm) square corner, beveled.

**Lock chassis:**
Steel, zinc dichromate plated for corrosion resistance.

**Latch bolt:**
Brass, 1/2" (12 mm) throw, deadlocking on keyed and exterior functions, 3/4" (19 mm) throw, anti-friction latch available for pairs of fire doors.

**Exposed trim:**
Wrought brass, bronze or stainless steel.

**Strike:**
ANSI curved lip strike 1 1/2" x 4 7/8" x 1 3/16" lip to center standard. Optional strikes, lip lengths and ANSI strike box available. See page 20.

**Cylinder and keys:**
6-pin patented Everest 29 S123 keyway standard with two nickel silver keys per lock.

**Keying options:**
Full size interchangeable core and Primus XP high security cylinders. Master keying, grand master keying, and construction keying.

**Warranty:**
Three-year limited warranty.

Certifications

**ANSI:**
Meets or exceeds A156.2 Series 4000, Grade 1 strength and operational requirements.

**Federal:**

**UL / cUL:**
All locks listed for A label single doors, 4’ x 8’.
Letter F and UL symbol on latch front indicate listing. Electrified functions are UL19X Listed for single point locking applications. UL437 Listed locking cylinder optional: specify Primus 20-500 Series cylinder.

**ADA compliant:**
Schlage Lock Company offers a wide selection of locks designed to meet the Americans With Disabilities Act.

1. Line item number  
2. Quantity  
3. Complete model number with function and cylinder type

To order cylinder options, change “PD” at the end of the model number as follows:

- **D53PD**: Standard.  
- **D53LD**: Less standard cylinder. For Primus cylinder, specify this option and order Primus cylinder separately.  
- **D53CD**: With temporary plastic construction cylinder. Double cylinder functions ordered less cylinder are furnished with these construction cylinders to maintain timing of key cams.  
- **D53JD**: Prepared for full size interchangeable core, less core. For Primus core, specify this option and order Primus core separately.  
- **D53RD**: With full size conventional interchangeable core installed. Order control keys separately.  
- **D53TD**: With full size (temporary) construction core installed. Order all keys separately.

4 / 5 Outside design / finish. Specify tactile warning (knurling) here as “8AT” for Athens, “8RO” for Rhodes or “8SP” for Sparta.  
6 / 7 Inside design / finish. Leave blank if same as outside.  
8 Hand. Required for keyed knob designs and all split finish locksets. One hand per line item.  
9 Latch. Leave blank for standard or specify part number for optional latch. LLL=less latch.  
10 Strike. Leave blank for standard or specify part number for optional strike. LLL=less strike.  
11 Door thickness, if non-standard. Example: 200 = 2”.  
12 Extension, to specify whether thick door is extended inside (EI), outside (EO), differently (ED) or equally (EE).  
13 Dimension for strike lip lengths. See price book for availability of specific dimensions with specific strikes (e.g. 138 = 1 3/8”).  
14 Keying detail (e.g. key symbol, keyway, bitting) and other special requirements.
