Schlage Control™
Smart Deadbolt

Connect and control more doors.

A whole lot easier than ever before.

Security has always been at the heart of all our products.

Today we can deliver so much more.

Walter Schlage invented the cylindrical lock in 1920; since then Schlage has consistently delivered innovation and continuous improvement. Now, we've added the latest technology to our world-class mechanical locks to deliver a new level of efficiency and convenience for your facility.

By adding built-in intelligence and communication technology Schlage Control,™ LE, and NDE wireless locks can help your staff:

- Increase productivity by managing locks and electronic credentials from virtually anywhere
- Save time by eliminating the need to visit locks to make changes
- Review and export lock usage and history for detection and diagnostics
- Reduce risks associated with lost or stolen keys

So if you are looking for an affordable way to improve security while reducing operational costs, open the door to Schlage wireless locks.

Bring the added benefits of wireless security to any door.

Reduce the time and costs associated with managing keys due to frequent turnover

Enhance security with more visibility and control

Increase efficiency by enabling updates to occur from virtually anywhere

Integrated lock, reader and sensors simplifies installation.

Mitigate risks associated with lost or stolen keys, provides a detailed audit of events

Increase satisfaction by enabling convenient card access to shared spaces

Integrates seamlessly into existing EAC systems[1]

[1] Requires alliance member software; consult your Allegion rep for more information.

Designed to work together in commercial, institutional and multi–family properties.

Schlage Control,™ LE, and NDE wireless locks share the following features:

- Built on robust, reliable mechanical platforms
- Built-in credential reader and sensors for simplified installation
- Built-in Bluetooth® and Wi-Fi[1] connectivity
- Up to 2-year battery life with typical use

[1] Wi-Fi available on NDE and LE only

Schlage NDE

Electronic credentials change the game.

- Credentials can be issued to residents, employees, visitors or service providers with restrictions to specific days and times

- Electronic credentials can be quickly added and revoked from anywhere

- Single credential can be used across a campus or facility including resident entry, common areas and amenities

- Enjoy the convenience of using a card, smart fob, PVC disk, or a smart wrist band to open doors

Popular credentials

Allegion offers a wide variety of credential options; highlighted below are just a few of the most popular:

Cards:
– 9520 or 9551 MiFare® smart card
– 9951 MiFare® smart plus proximity card

Fobs:
– 9651 MiFare® keyfob
– 9691T - MiFare® smart plus proximity thin fob

Wristbands:
– 9351 MiFare® smart wristband

Mobile:
– aptiQMobile

ENGAGE™ cloud-based web and mobile apps

It has never been easier to take the first step from mechanical keys to electronic credentials. ENGAGE cloud based web and mobile apps simplify site set-up and enable lock and user management from virtually anywhere.

Flexible ENGAGE solutions deliver a whole new level of ROI:

- Mitigate risks by providing more visibility and control to each opening

- Improve productivity by setting automatic lock and unlock schedules to common areas

- Improve efficiency by having the ability to remotely add and delete users from anywhere

- Improve satisfaction by issuing one credential that can be used for multiple applications including resident entry, common areas and amenities

iOS

- iPhone 5 or newer
- iOS 9 or newer

Android

- Lollipop (5.x) or newer
- For optimum performance a flagship device from a major manufacturer is recommended
  - Samsung Galaxy S5 or newer
  - Google Nexus 5 or newer
  - LG G3 or newer
  - HTC One M8 or newer
  - Sony Z3 or newer

Web Browsers

- Mozilla Firefox 46 or newer
- Google Chrome 40 or newer
- Microsoft Explorer 11 or newer

For solutions requiring real time updates, or applications beyond cylindrical and mortise, please contact Allegion at 866.963.3924 or visit us.allegion.com/alliances

ENGAGE mobile APP

ENGAGE web APP

Manage access

Manage your site from anywhere with ENGAGE cloud-based web and mobile applications.

- Configure lock settings
- Add new users and enroll credentials
- Manage users and assign access privileges
- New! Set lock schedules, holidays, user schedules
- View & export audits and alerts
- Invite others to assist with administration

For more information, download the ENGAGE™ web and mobile app data sheet from allegionengage.com

Update locks

Send updates wirelessly at the lock with the ENGAGE mobile application on a Bluetooth® enabled smart phone or tablet. Or leverage the existing Wi-Fi network or built-in No-Tour capability to send periodic updates without visiting the lock.

▪ Update access rights
▪ Update lock settings
▪ Update firmware
▪ Perform diagnostics
