

Cylinders and key systems

Protect new key systems with Everest 29

Schlage can help you design a system that can grow and change along with your needs, allowing you the flexibility to upgrade your security without the need to replace all your cylinders.

What it operates	What it is
<ul style="list-style-type: none"> Everest 29 Primus® XP cylinders Everest 29 restricted cylinders Everest 29 open cylinders 	<p>UL 437 version</p> <ul style="list-style-type: none"> UL 437 versions provide drill and pick resistance and withstand physical attack High security cylinders have a second set of pins for added security Patented key control sold with various levels of geographic exclusivity Keys operate high security, as well as restricted security or standard security cylinders Available only in conventional
<ul style="list-style-type: none"> Everest 29 Primus XP cylinders Everest 29 restricted cylinders Everest 29 open cylinders 	<p>Controlled access</p> <ul style="list-style-type: none"> Patented key control sold with various levels of geographic exclusivity High security cylinders have a second set of pins for added security and pick resistance Keys operate high security, as well as restricted security or standard security cylinders Available only in conventional and FSIC  <p>EVEREST 29 PRIMUS XP High security</p>
<ul style="list-style-type: none"> Everest 29 restricted cylinders 	<ul style="list-style-type: none"> Key distribution is restricted duplication must be authorized End user's ID numbers are stamped on all keys, enabling Schlage to identify the source of any unauthorized keys Patent-protected keys are drop-shipped from the factory directly to an end-user specified location to guarantee exclusivity Available in conventional, SFIC and FSIC  <p>EVEREST 29 Restricted security</p>
<ul style="list-style-type: none"> Everest 29 open cylinders 	<ul style="list-style-type: none"> Patented key blanks can be stored by commercial locksmiths and security dealers Keys can be duplicated without any paperwork or signature verification Sold only through commercial outlets Available in conventional and FSIC  <p>EVEREST 29 Standard security</p>

Upgrade existing classic key systems with Primus XP

Schlage offers key system solutions that are ideal for upgrading an existing key system to control key management. Our patent-protected cylinders help prevent unauthorized duplication and can be integrated into virtually any existing system.

What it is	What it operates
